Manjit Kumar Sahoo

manjitkumarsahoo02@gmail.com 7655890249 Manjit Kumar Sahoo Manjitkumarsahoo

SUMMARY

MCA graduate with expertise in full-stack development using MERN Stack and strong proficiency in JavaScript and OOP concepts. Passionate about building scalable applications and solving complex technical problems.

Technologies

Languages: HTML, CSS, JavaScript, Typescript

Libraries & Frameworks: Bootstrap, React.js, Redux, Node.js, Express.js ,Next.js

Databases: SQL,MongoDB

Education

College of Engineering Bhubaneswar , MCA — Sept 2022 – Jul 2024

- CGPA: 8.53

Vyasa Nagar Autonomous College , B.Sc. — Aug 2017 – Oct 2020

- CGPA: 8.18

Institute of Higher Secondary Education ITER, BBSR , XII — Apr 2015 – Mar 2017

- Percentage: 60.16

Projects

Expense Tracker

Tech Stack: React (Vite), Express.js, MongoDB,CSS

- Developed a full-stack web application to track and manage personal expenses with category and date filters.
- Designed a responsive and intuitive UI using React and CSS for a smooth user experience across devices.
- Built RESTful APIs with Express.js to perform CRUD operations and connected them to MongoDB for persistent data storage.
- Implemented real-time form validations and error handling for improved usability and reliability.

Patient Dashboard System

Tech Stack: React 18, Context API, React Router, Chart.js, CSS Modules, Express.js

- Developed a full-stack patient dashboard with React frontend, Express.js backend, and JSON file-based data storage simulating a database.
- Implemented a weight tracking module with manual input, BMI calculation, and progress visualization using Chart.js.
- Built a medication shipment tracker to manage prescription status, delivery lifecycle, and user-specific data.
- Designed a modular, responsive UI using atomic design principles, Context API for global state, and route protection for secure access.

Certifications

- **MERN Stack Development Training**, JSpiders, Bengaluru — *Sept 2024 – Present*
  Hands-on training in MongoDB, Express.js, React.js, and Node.js. Built full-stack web applications, implemented CRUD operations, and integrated RESTful APIs. Worked on real-time project scenarios and deployment practices.
